Dear Wildlands Team,

On behalf of the trustees of Aongatete Forest Project, I would like to extend our sincere thanks and appreciation to Wildlands for the incredible volunteer work that your team have performed in Aongatete Forest. Their work alongside Helen Saville, our Field Manager, and our other volunteers, helping with pest control and track maintenance, has made a very noticeable and positive impact on preserving our natural environment and demonstrates a genuine passion for conservation and a strong sense of community spirit.

Your team have been a huge help in the pest control and track maintenance tasks that are integral to maintaining the health and biodiversity of Aongatete Forest. The team's hard work directly contributes to the ongoing success of our project in safeguarding the native flora and fauna of this precious ecosystem. The dedication and enthusiasm your team brings to these tasks is really appreciated.

In recognition of this contribution, AFP would like your approval to display your logo on our partners and supporters page on our website <https://aongateteforest.org/>. We value your support and feel that it would be great to recognise this publicly.

Yours sincerely,

James Denyer,

Chairperson, Aongatete Forest Project
